Moremi Mobagunje
CCLI: #7137781

VERSE 1

Now or never
Here and forever
My present and my promise align
The seen and the hidden
Meet in collision
And come to life

CHORUS

What if I told you
The future is now
What if I told you
We're taking ground

VERSE 2

Lead and I'll follow
Step into the unknown
There's no turning back
Wake up the dreamer
It's time to imagine
You're stirring within my soul

BRIDGE

Here we come
Into the light of your promise
Watch me run
Into the rhythm of grace
I can feel it now
Something is changing
The past is gone
And the future is now
